## SUMMARY

A highly motivated full-stack web developer with expertise in Next.js, React.js, Typescript, and Python, along with a strong interest in AI and machine learning. Experienced in developing scalable web applications, integrating AI solutions, and optimizing user experiences. Passionate about problem-solving and building innovative software solutions.

## EDUCATION

B.Tech in Computer Science and Engineering, NIST UNIVERSITY, Berhampur (GPA: 9.27) 2022 - Present

## CERTIFICATIONS

Google Gen AI - Google Aug '24  
AWS Academy Cloud Web Application Builder Jun '25

## PROJECTS

### Get material - Notes sharing platform

- GetMaterial is a React-based web app I developed to help students access and share study materials, including notes and PDFs. Users can browse, upload, and download resources by subject. Already used by 500+ students, the platform has over 230 notes uploaded in just 4 weeks. Dec '24

### OpenRoom - AI powered Anonymous chat app

- An anonymous chat app enabling real-time interactions where both users and AI can respond to messages while ensuring privacy. Built with React.js, JavaScript, Firebase, Node.js, Cloudflare Workers, Tailwind CSS, and the Google Gemini API. Feb '25

### Agrovision - crop disease detection system

- AgroVision is an AI-powered web app for crop disease detection, using machine learning to analyze plant images and provide real-time insights. With a user-friendly interface, chatbot assistance, and actionable recommendations, it helps farmers improve productivity and sustainability. Sep '24

## WORK EXPERIENCE

### Framtt - Fullstack developer

I'm working as a Full Stack Web Developer at Framtt, a car rental dashboard provider startup. I'm contributing to the main dashboard where tenants manage their car details, bookings, and related operations, ensuring a seamless and efficient management experience. Aug '25 — Present

### DealsOfAgro - Website developer

Working part-time as a Freelance Full Stack Web Developer at DealsOfAgro, developing an e-commerce platform for agricultural machinery business. I manage both frontend and backend using Next.js and integrate product management and order handling for a smooth shopping experience. April '25 — Present

## SKILLS

- Programming Languages: Java, Python, JavaScript, TypeScript, C
- Web Technologies: HTML, CSS, React.js, Next.js, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS, Supabase
- Tools & Platforms: Git, GitHub, Vercel, Figma, Postman, Firebase
- Soft Skills: Communication, Team Management, Understanding Prospects
